

DANIYAL SAQIB

Full-Stack Developer | CS Student @ UMT

Lahore, Pakistan · +92 306 4699932 · daniyalsaqib04@gmail.com · linkedin.com/in/daniyal-saqib-012142335 · github.com/daniyalsaqib · daniyalsaqib.me

PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience across React/Next.js, FastAPI, PostgreSQL, and Python, currently applying that foundation in a live banking IT environment at Allied Bank. Combines technical delivery with operational leadership as COO of a software company, where he restructured and led a 10-person technical team.

EXPERIENCE

IT Intern | Allied Bank Limited (ABL)

Aug 2026 - Present · Lahore

- Completed a console-based banking operations menu (C++) as an onboarding technical assignment within ABL's 4th IT Group.
- Designing and building agentic AI prototypes for internal digital workflows, including outreach, fraud operations, statement intelligence, and policy Q&A.

Chief Operating Officer | Axiolink Systems

Dec 2025 - Jul 2026 · Lahore

- Restructured a 20-person technical team into a focused 10-person unit, improving delivery accountability.
- Partnered with the CTO to break down, prioritize, and assign technical tasks across the team.
- Served as the primary public face of Axiolink on campus, driving organic word-of-mouth visibility.

Full-Stack Intern | WiMetrix

Aug 2025 - Oct 2025 · Lahore

- Built a digital clock synchronization module (JavaScript) while working directly with senior engineers.
- Collaborated via Git/GitHub on live team workflows.

TECHNICAL PROJECTS

Networking CRM (In Development)

Next.js · PostgreSQL · Leaflet

- Building a map-based contact system for managing and locating a 1,300+ person professional network.
- Surfaces relevant connections by geographic location when needed.

Inbox Copilot - SOFTEC'26 Hackathon

Streamlit · Python · Groq API

- With Team Panic Pointers at FAST-NU Lahore, built an AI email parsing and ranking system in 6 hours.
- Classifies opportunity emails, extracts structured fields, and generates personalized priority rankings.

ABL Agentic AI Suites (In Development)

Agentic AI · ABL Internship

- Designing coordinated agents for outreach, fraud flagging, charity-consent workflows, statement Q&A, subscription detection, and policy Q&A with source citations.

PatientZero Prototype

C# · Unity3D

- Functional horror game prototype with custom C# behavior scripts and collision logic, built with two teammates for a Game Development elective.
